Connector	strong hot-dip galvanized steel
Allowed temperature condition	-30 degree Celsius ~ +70 degree Celsius
Wind load	max. 120km/h (can be reinforced)
Snow load	75kg/sqm (snow can't stay if use big degree roof pitch design)
Easy to be assembled and dismantled, movable. 聽No pole inside, 100% available interior space.	

Features:

Customizable Size: These tents are available in a variety of sizes to accommodate different event capacities and layouts. They can be customized to fit large gatherings or intimate gatherings, depending on the event's needs.

Distinctive Arcum Design: The Arcum design features elegant curved roofs that not only enhance the tent's aesthetic appeal but also provide structural strength and stability. The curved design also allows for better rainwater runoff and snow load distribution.

High-Quality Materials: Premium-quality materials such as high-grade aluminum or steel frames and durable PVC or polyester fabric covers ensure the tent's durability, longevity, and weather resistance. These materials are engineered to withstand harsh outdoor conditions, including wind, rain, and UV exposure.

Spacious Interior: Outdoor Large Custom Arcum Tents offer spacious interiors with high ceilings, providing ample room for seating arrangements, stages, dance floors, catering setups, and other event essentials. The open layout allows for flexible event configurations and optimal space utilization.

Versatility: These tents are versatile structures suitable for a wide range of outdoor events, including weddings, corporate functions, trade shows, festivals, concerts, and more. They can be customized with various accessories and features to meet specific event requirements.

Modular Construction: The modular construction of Outdoor Large Custom Arcum Tents allows for easy assembly, disassembly, and transportation. The tent components can be quickly installed and dismantled, making them ideal for temporary or semi-permanent installations.

Customization Options: From sidewall configurations to flooring solutions, lighting, and HVAC systems, these tents offer a range of customization options to create the perfect event space. Custom branding, signage, and color options allow organizers to personalize the tent to match their brand or event theme.

Safety Standards: Manufacturers adhere to strict safety standards and regulations to ensure the structural integrity and safety of Outdoor Large Custom Arcum Tents. Engineering certifications, wind load calculations, and fire-resistant materials are incorporated to meet industry standards and local regulations.

Portability and Installation: Despite their size, Outdoor Large Custom Arcum Tents are designed to be portable and easy to transport between different event locations. They can be installed on various surfaces, including grass, asphalt, and concrete, with minimal site preparation required.

FQA:

Q1. Are you factory or trade company?

We are direct factory.

Q2. What is your Payment terms?

T/T is available.

Q3. Is your tent strong and stable enough,How about the wind loading?

Yes, Steel structure and cover wind resistance and load bearing is calculated by professional software and Experienced engineer team , will be more than we planned 50%.The wind load at least more than 80KM/H.

Q4. What's the material of the cover,does it can last long time?

The cover material is PVDF or PTFE.PVDF can last more than 15-20 years.PTFE can last more than 50 years.It have fabric inside,so it very strong ,not easy to be torn.

Q5. When will you ship the orders?

Once the design of tent is confirmed, we will arrange production plan, and inform you of the leadtime, generally it takes about 7-25 working days.

Q6. What is the total price include freight?

The total price is based on the design of the product and the requirements of the customer, all subject to the final calculation.
