Maximum wind loading	100km/h
Cover material	double PVC-coated fabric
Color	white, others available
Payment	T/T, L/C
MOQ	1 set
Production lead time	5-20days
Monthly Capacity	33,000M2

The key advantages:

Elegant Aesthetic: Curved event tents have a sleek and modern design that adds elegance and sophistication to outdoor events. The curved roof creates a visually appealing structure that stands out and enhances the overall ambiance of the event.

Spacious Interior: These tents typically provide a large and open interior space, allowing for flexible seating arrangements, dance floors, stages, and other event elements. The spacious layout accommodates a significant number of guests comfortably.

Natural Light: Many curved event tents feature clear or translucent roof panels that allow natural light to penetrate the interior space during the day. This creates a bright and airy atmosphere inside the tent, reducing the need for artificial lighting and providing unobstructed views of the surrounding scenery.

Versatility: Curved event tents are versatile and suitable for a wide range of outdoor events, including weddings, parties, corporate functions, trade shows, festivals, and more. They can be customized to accommodate different event sizes, layouts, and themes.

Weather Protection: These tents offer protection from the elements, including rain, wind, and sun exposure. The curved roof design helps to shed rainwater and snow, while optional sidewall panels or curtains provide additional shelter and privacy when needed.

Quick Assembly: Curved event tents are designed for easy and efficient assembly, allowing for rapid setup and teardown. With the help of a professional installation team, the tent can be erected quickly, minimizing downtime and ensuring timely event preparation.

Customization Options: These tents can be customized to meet specific event requirements and preferences. Customization options may include sidewall configurations, flooring solutions, lighting, heating, air conditioning, branding opportunities, and more.

Durability: High-quality materials and construction ensure that curved event tents are durable and long-lasting. They are designed to withstand various weather conditions and are built to meet industry safety standards and regulations.

Portability: Curved event tents are portable and can be easily transported to different event locations. They are ideal for temporary installations and can be used for both short-term and long-term events.

FQA:

Q: Are you a trading company or manufacturer?

A: Cosco Tent is an one-stop tent manufacturer in China who has the export license so we can export by ourselves.

Q:What kind of tent can you produce for me?

A: We can produce different sizes of aluminum tents, such as 3m-55m modular wedding tent, pagoda,gazebo tent, modular dome ,arcum,curved tent, hexagonal ,octagonal,decagonal tent, peg n pole tent, double-desk structure tent, combo structure tent.etc.

Q: What's the material you use?

A:The Tent is structured by highly reinforced extruded aluminum profile and double PVC-coated fabric (roof:850/m²;sidewalls:650m²), with excellent characteristics like flame retardant, UV resistance, waterproof,and max.allowed wind speed at 80-100km/h.

Q: What's the life span of your tent?

A:The Tent provide 10-year guarantee for each tent. Normally this kind of aluminum structure tent could be used over 10 years, the PVC fabric could be used over 10 years under proper maintenance.

Q: Why you are my best choice?

- A: 1) one-stop effective and strong technical support;
2) Excellent after-sales service.
3) Reliable quality.
4) Efficient communication (48-hour quote lead time).
5) Competitive prices with short lead-time.

Q:How big a tent do I need?

A:Tent size depends on the number of people/area you want to cover.Normally,we calculate1-1.5sqm per person.
