Details:

Advantages:

Transparent panels allow natural light to enter the space during the day, creating a bright and airy atmosphere while providing a visual backdrop for nighttime activities.

Provides unobstructed views of the surrounding landscape or skyline, allowing guests to enjoy panoramic views and connect with the outdoor

environment.

The transparent panels of the A-frame transparent mask allow plenty of natural light into the space, reducing the need for artificial lighting during the day.

Logos, graphics and promotional information can be easily applied to clear panels to maximize visibility and exposure for sponsors or event organizers.

The A-frame transparent mask is a versatile structure that can be used for a variety of events including weddings, parties, corporate functions, trade shows, exhibitions and festivals. Their adaptive design allows customization in terms of size, layout, and configuration to suit the specific needs of each activity.

The A-frame hood provides excellent protection, using durable materials such as PVC or polycarbonate panels that provide resistance to rain, wind and UV rays, ensuring that guests stay dry and comfortable inside the tent.

FAQ:

Q: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q: Is that factory price?

Yes. We assure you all prices are based on factory.
