Wind Load	80km/h - 100km/h
Snow Load	10cm Thickness Floating Snow
Temperature Index	-30 Degree Celsius to +70 Degree Celsius
Life Time	Aluminum frame more than 15 Years. PVC fabric 5-10 years

Key Features:

Durable Construction: Warehouse tents for industrial storage are constructed with high-quality materials to ensure durability and longevity. The frame is typically made of sturdy materials such as galvanized steel or aluminum, while the cover is made of heavy-duty fabric such as PVC or polyester, offering resistance to weather elements and UV rays.

Spacious Interior: These tents feature a spacious interior with ample headroom, allowing for efficient storage of large and bulky items. The absence of interior support columns or poles maximizes usable storage space and facilitates easy access to stored items.

Quick Assembly: Warehouse tents are designed for quick and easy assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for rapid deployment of storage facilities, minimizing downtime and maximizing productivity in industrial settings.

Customization Options: Warehouse tents offer a range of customization options to suit specific industrial storage needs. This may include adding doors, windows, ventilation systems, lighting, flooring, insulation, or partition walls to optimize the space and functionality of the structure.

Weather Resistance: Warehouse tents are designed to withstand various weather conditions, including rain, wind, snow, and sun exposure. The weather-resistant fabric cover and sturdy frame provide reliable protection for stored items, ensuring they remain safe and secure in any weather.

Versatility: These tents are versatile structures that can be used for a wide range of industrial storage applications, including warehouse overflow, inventory storage, equipment storage, manufacturing facilities, distribution centers, and more. They can also serve as temporary workshops or production areas.

FAQ :

Q1. You are manufacture factory or trading company?

We are manufacture factory. And you are welcomed to visit us at any time. The quality control flow and sales team will show you our professionalism. Also you will can get best and most competitive price after visiting us.

Q2. Is your price competitive compared with other companies?

Our business objectives are to give the best price with same quality and best quality with the same price. We will do everything we can to reduce your cost and guarantee you get the best product that you paid for.

Q3: Can you print our logos on event tent for sale?

Yes. Customized logos can be printed on the tent fabric.

Q4: Is your tent strong and stable enough? How about the wind loading?

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6), so our tent structure is safe and strong enough to resist wind up to 100 km/hr.

Q5. Do you accept container loading inspection?

You are welcomed to send an inspector, not only for the container loading, but any time during the production time.

Q6. Does your tent be able to installed repeatedly?

What is the life span? Sure, our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q7: How long is the warranty period?

Guarantee is one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.

Q8:How is the quality of the product guaranteed?

Our products will be strictly tested by the quality inspection department before leaving the factory, and each product will be strictly controlled to ensure product quality.
