Product name	Outdoor Temporary Storage Tent	Wind resistant:	100km/h
Material	Aluminum alloy 6061-T6	Seismic min.	9
PVC covering	650g/750g/850g, waterproof, sunproof, fireproof,	Snow min.	120kg/Sqm

Key Features:

A-Frame Design: A-frame outdoor temporary storage tents are characterized by their A-shaped roof design, which offers several advantages. The sloped roof allows for efficient water runoff, minimizing the risk of water pooling and ensuring protection against rain and snow.

Spacious Interior: Despite their compact footprint, A-frame tents provide generous interior space for storage purposes. The absence of interior support columns or poles maximizes usable storage space, allowing for efficient organization and access to stored items.

Durable Construction: These tents are constructed with high-quality materials to withstand outdoor conditions. The frame is typically made of sturdy materials such as galvanized steel or aluminum, while the cover is made of durable fabric such as PVC or polyester, providing resistance to weather elements and UV rays.

Quick Assembly: A-frame outdoor temporary storage tents are designed for quick and easy assembly, with pre-fabricated components that can be assembled on-site using basic tools and minimal labor. This allows for rapid deployment of storage facilities, minimizing downtime and maximizing productivity.

Weather Resistance: The weather-resistant fabric cover and sturdy frame of A-frame tents provide reliable protection for stored items against rain, wind, sun exposure, and other outdoor elements. This ensures that stored items remain safe and secure in any weather conditions.

Advantages:

1. the material quality

The materials of outdoor tents are of high quality, which can effectively prevent rain, wind, snow and other weather factors, protect you from the weather, and allow you to have enough sleep and rest space, so that you have a safe rest space during your trip.

2. Light and easy to carry

Outdoor tents from the material to the structure are relatively light, very convenient to carry, compact structure, if put away the space is also relatively small. Tents are generally removable, or put in a tent bag, you can take it anywhere, such as wilderness play, camping can be used.

3. reinforcement design

Outdoor tents are not only well-designed, but also reinforced design, if you encounter strong winds, you can use a rope to fix the tent on the tree, you can also nail it to the ground, more effective protection of your safety.

4.,strong and durable

The outdoor tent is made of high quality canvas, the surface is treated with crystal treatment and anti-ultraviolet treatment, wear and heat resistance, water resistance, moisture resistance, weather resistance, strong durable, not only can provide a safe resting space, but also can effectively protect your safety.

FAQ :

1)Q: Are you a factory or trading company?

A: We are a professional tent factory. So we can offer you a competitive price and a fast delivery time, can also control the quality well and supply constantly to ensure the quantity.

2)Q: How to choose the size of the tent?

A: The size depends on how many people you want to stand, sit or have dinner in this tent. And the size also depends on the land space you will put up this tent. Normally, we advise 1-1.5sq.m/person.
